Yamato Transport Co., Ltd provides more than just delivery service. They aim to build high-value added logistics infrastructures.

Yamato Transport constantly deliver user-friendly services at competitive prices thanks to their Japan-wide network able to fully understand customers' needs.

Haneda Chronogate Plant has been built in an area where all options for shipping (by sea, land and air) are available. It is a completely new logistics facility where all functions of Yamato Group can be seen first hand: value adding functions including cleaning, printing, repairs, and maintenance, as well as all the supporting processes allowing shipments to arrive at final destination fast and with accuracy.

TOUR GOALS:

- ✓ **Understanding how to create value for the final customer even in a mature business**
- ✓ **Seeing first-hand an excellent example of Lean approach implemented in the logistics distribution**
